

SUMMARY

Computer Engineering student with strong foundational knowledge in Python programming, UI/UX design, and cybersecurity. Passionate about creating user-centered solutions and enhancing digital experiences through thoughtful design and secure development practices. Proven leadership as Deputy Head of the Cybersecurity Division at SEULANGA, mentoring team members and preparing them for competitions. Eager to contribute to innovative projects, continuously learn new technologies, and bridge the gap between design, development, and security.

EXPERIENCE

Deputy Head of Cybersecurity division at Seulanga Community

02/2025 - Present

Seulanga Community

- Mentored and trained division members in fundamental and advanced cybersecurity concepts, fostering a collaborative and growth-oriented learning environment.
- Designed structured learning sessions and hands-on workshops to enhance members’ technical skills and readiness for national-level cybersecurity competitions.
- Coordinated team activities and knowledge-sharing programs to promote continuous improvement and peer learning
- Successfully guided members through various training stages, resulting in increased confidence and technical competence in CTF and penetration testing scenarios.

EDUCATION

Computer Engineering

07/2023 - Present

Syiah Kuala University - Bachelor of Engineering

SKILLS

C Programming	Expert	C++ Programming	Advanced
Hardware-Software Integration	Expert	Digital Circuit Design	Advanced
Problem-solving	Expert	Embedded Systems Development	Advanced
Analytical Skills	Expert	System Analysis	Advanced
Technical Troubleshooting	Expert	Python Programming	Intermediate
